## **DETAILED ACTION**

### ***Drawings***

1. New corrected drawings in compliance with 37 CFR 1.121(d) are required in this application because drawings filed 20 December 2000 are informal. Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application.

### ***Allowable Subject Matter***

2. Claims 1-5, 7-10, 13-17, and 19 allowed. They have been renumbered 1-15.

## **REASONS FOR ALLOWANCE**

3. The following is an examiner's statement of reasons for allowance: Independent claims 1, 13, and 14 establish a dynamics processor comprising 'n' number of processing blocks each including a processing block AGC, a negative attack time limiter, and a level mixer. Prior art of record Klayman (6,285,767) discloses 'n' number processing blocks comprising an AGC. However, Klayman does not disclose each of the processing blocks including a negative attack time limiter, and a level mixer. Therefore, claims 1, 13, and 14 are allowable along with their dependents.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
